

TEPO11 Attendance monitoring policy and procedure

Purpose

Turner English is required to systematically record and monitor attendance for students who enroll in the courses offered by the school. International students on a student visa who are studying English courses at Turner English are required to maintain a minimum of 20- hours attendance per week for scheduled face to face hours in the classroom. This is pursuant to legislative requirements detailed below.

Student's attendance will be regularly monitored on a weekly basis to ensure that Turner English facilitates the highest quality of learning opportunities and additionally maintains compliance with legislative requirements. Students identified as *at risk* of unsatisfactory attendance will be proactively counseled and notified formally through warning letters. Unsatisfactory attendance can lead to the cancellation of the student visa.

The principles underpinning this policy are that early identification will enable appropriate support and intervention strategies to be implemented in order for the student to satisfactorily complete their program. Regardless of unsatisfactory attendance, the student will receive an attendance certificate which indicates their overall attendance percentage.

This policy and procedure identifies processes for:

- Contacting and counseling students;
- Monitoring attendance;
- Notifying identified students of their rights to access the complaints and appeals process;
- Reporting students; and
- Circumstances where students need not be reported if their attendance percentage is above 70%
